

Wanted: *Security Consultant*

Looking for a new challenge? Do you breathe bits and bytes? IT security in your blood? Do firewall configurations hold no secrets for you? Then you are the TrueGENius we are looking for!

Consulting

Implementing technical projects
|| Solving complex problems
across different technologies ||
Creating and giving tailor-made
trainings

Presales

Analyze the customers' needs
and make recommendations ||
Execute proof of concepts,
lead the debriefing and
follow-up on results.

Support

Day to day assistance || Provide
accurate and timely feedback to
the customer

You have

5 years' experience in a similar function

Profound knowledge of at least 2
products in our portfolio

Eager to constantly improve your
technical skills

Good verbal and written communica-
tion skills in Dutch, English and French

You Are

You breathe bits and bytes and
want to choose your own path

Looking forward to sparring with
your technical colleagues

Work independently, defining
targets and prioritizing tasks in a
demanding environment

Proactive hands-on approach with
a problem solving mindset

We are TrueGEN

TrueGEN, expert in IT security, believes in uniqueness. Each customer, and employee, has his own needs and ambitions. This philosophy echoes throughout the enterprise: tailoring any solution, customizing all support and personalizing every service. The result? Happy customers and motivated employees.

An offer you can't refuse

Choose your own path

Grow in a company in
full expansion

Internal and external
trainings

Team sparring

We love to smile

Mad about technology?
